IE University Undergraduate Explorer Student Program Course Offer **2024/25**

This is a tentative list of subjects that might be available for AY 25/26 based on what was offered last academic year to incoming students. This list can be shared with incoming students for subject validation purposes, however kindly note this is not a final list and we cannot guarantee that any of the courses listed here will be offered this coming academic year.

Final academic information such as the final list of courses and syllabi will be available on our Academic Catalog platform later in the semester, which students will receive access to upon admission to IE University. Students will have at least 1 month before enrollment to review the final course offer and discuss their study plan with their home universities.

Students will be able to enroll in subjects before the start of the semester during the first enrollment phase, and will be allowed to make changes to their original enrollment during the Add & Drop period that starts on the first day of the semester (second enrollment phase).

Students are required to enroll in at least **60% of their credits from their nominated Bachelor Program**, with the possibility to take up to 40% of their credits from a different study area (depending on course availability and overlaps). Consequently, please make sure you nominate your students to the IEU Bachelor Program & campus that best fits their original academic plan back home.

1 ECTS credit = 25 hours of work including classes and related academic activities.

Maximum ECTS per semester: 30 ECTS + 3 ECTS Spanish course (optional). Students may take less than 30 ECTS if allowed by their home university, as minimum enrollment requirements are set by home institutions.

Some courses have prerequisites and students need to make sure they comply with them before enrolling. Once students have access to the final course offer (after admission), they can check course prerequisites in the syllabi.

We cannot guarantee the availability of any courses as a **first come, first serve** system applies during enrollment!
