There's no place in the world quite like Montreal. It is a city steeped in culture and infused with internationalism. Of Montreal's 3.6 million residents, nearly 800,000 were born outside of Canada. A further 220,000 are students at universities or other professional post-secondary programs, making Montreal one of the world's most student-friendly cities. Its safe, socially vibrant setting makes Montreal one of the world's most livable cities.

McGill University is a thriving city within a city – a community of learners where passionate, independent minds come together to combine their great ideas and make even greater ones. It's a place pulsing with life, where our students – 35,000-strong from about 150 countries – are earning their places at the vanguards of their fields – from music to medicine, from the art of architecture to the science of sustainability.
