

# HaBS Faculty Snapshot: Student-Staff Partnership Projects

## Purpose of Report

The purpose of this Report is to provide the Faculty of Health and Behavioural Sciences (HaBS) senior leadership team with a high-level overview of the HaBS Partnership Projects that have occurred from the period of May to November 2018, as part of the UQ Student-Staff Partnership Project (SSP) initiative.

## Context

In 2017, the Deputy Vice-Chancellor (Academic) approved Student Strategy funding for a large-scale implementation of Student-Staff Partnership Projects. Student-Staff Partnership Projects aim to create a cultural transformation at UQ where Students and Staff connect as equals, partners and co-collaborators on projects that seek to enhance the student experience at UQ. Further information on this initiative can be found [here](#). Table 1 highlights the funding allocation model, as approved for Student Strategy Funding.

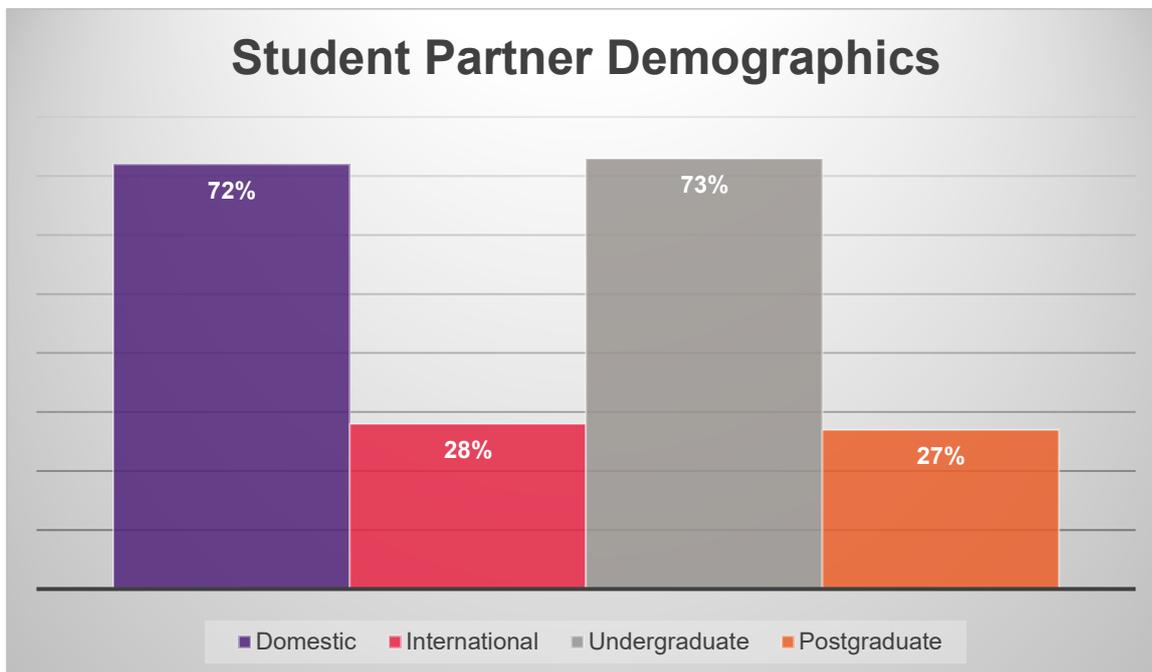

Year	No. of Student Partners	Allocated funding for grants
2018	350	\$350,000
2019	600	\$600,000
2020	800	\$400,000

**Table 1: Allocated Student Strategy Funding for Student Partner Grants**

## 2018 University SSP Projects Update

The operationalisation of SSP Projects commenced in May 2018. Since this time, **338 Student Partners** have either completed projects, or are currently collaborating on projects with Staff Partners.

Approximately 27% of Student Partners are undertaking postgraduate studies, with 73% undertaking undergraduate studies. Approximately 28% are international students, and 72% are domestic students.

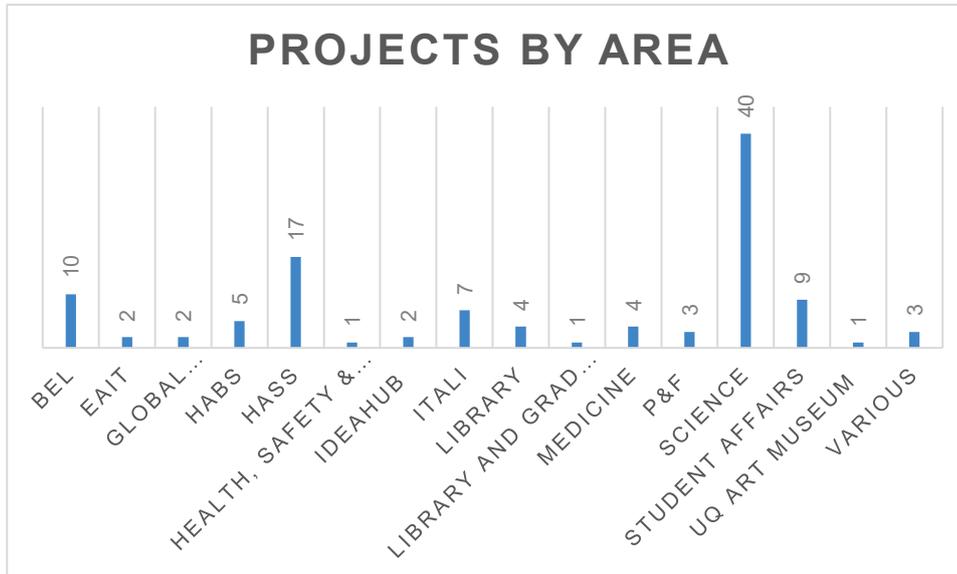

**Figure 1: Student Partner Demographics**

There are currently **111 projects** that have been funded through the Student-Staff Partnerships initiative. 72 of these projects are contextualised within the curriculum, and 39 are within the broader student experience space. Approximately **97 academic staff and 48 professional staff** have collaborated on projects. Some illustrative examples of projects include:

- Student Partners as Consultants, generating feedback and evaluating the course redesign prior to implementation (UQ2U project).
- Co-developing digital literacy modules and identifying areas in which these modules can be embedded within the curriculum.
- Co-developing and implementing a Student Engagement Strategy for Entrepreneurship at UQ.
- Co-developing a short online module to support students succeeding in blended courses (UQ2U).
- Establishing good practice, contextualised guidelines for Student Representatives at UQ.

## 2018 HaBS SSP Projects Update

In total, **5 partnership projects** were based within the HaBS Faculty from the period of May to November, 2018. Figure 2 provides a snapshot of the partnership projects according to Faculty / Unit.

**Figure 2: Partnership Projects by Faculty/Unit**

Brief descriptions of the 5 HaBS partnership projects are shown in Table 2.

Staff Project Lead	Title of project	Aims	Deliverables / Outcomes	Number of student partners engaged in project
<b>Dr Emma Bartle</b>	<i>Year 1 Dentistry Resource Development</i>	DENT1020 (Dental Science I) is a core Year 1 course within the undergraduate dental program. It covers multiple science disciplines, and includes students from a broad range of backgrounds. Due to the sheer diversity of this cohort, scaffolded and personalised resources are required.  NB: Project Ongoing.	This partnership project will develop: a series of learning activities to cater for the diverse student cohort; recommendations for assessment tasks; and revise the sequencing and time spent on topics.	5
<b>Dr Emma Bartle</b>	<i>Enhancing the Dental Student Experience: A partnership to co-create and implement a suitable student governance</i>	This project seeks to strategically collaborate with student leaders to consider what sustainable student governance within the School of Dentistry could look like, and what support resources students and staff require.  NB: Project Ongoing.	This project will involve the co-creation of: Student Representative roles and position descriptions; a 2019, Year 1 Orientation program; draft the Terms of Reference for a Student Experience Committee; and co-design the 2019 offering of the first-year peer mentoring program.	5
<b>Dr Eimear Enright</b>	<i>Students as Pedagogical Advisors: Redesigning EDUC3011</i>	This project seeks to redesign EDUC3011 (Youth, Sport and Physical Culture) through enhancing the pedagogical resources associated with the course.	This project will involve reviewing and enhancing the tutorial activities and PowerPoints for EDUC3011 as a means to enhance student engagement and ultimately, deepen student learning.	1

<b>Dr Leigh Sperka</b>	<i>Experimenting with Lecture Co-Creation for Pre-Service Teachers</i>	<p>This partnership project aimed to enhance the pedagogical and assessment practices in EDUC3293 (Junior Science In Action).</p>	<p>This project co-constructed and co-delivered one lecture for pre-service science teachers, and created resources for EDUC3293 students in the form of examples of authentic teaching experiences (lesson plans, worksheets) and assessment support. Feedback received from students included, "I like that it was very student-centred and fitted what we needed to know."</p>	<p>1</p>
<b>Dr Alexandra De Young</b>	<i>Creating trauma-informed and culturally-sensitive guidelines for UQ students recruiting families for research projects at Lady Cilento Children's Hospital</i>	<p>Currently, UQ undergraduate and postgraduate students undertaking clinical research projects have the opportunity to recruit children, adolescents and families attending the Lady Cilento Children's Hospital (LCCH) as respondents as a result of UQ's long-standing collaboration with Children's Health Queensland (CHQ). UQ students are often faced with families suffering with Post-Traumatic Stress and thus must be equipped with sufficient training and skills to work within these challenging circumstances.</p> <p>NB: Project Ongoing.</p>	<p>This project will develop guidelines for future UQ students regarding appropriate and sensitive interactions with families' at LCCH. This will include a small self-care component for UQ students, which is important for reducing potential vicarious trauma experiences due to working with vulnerable populations. An additional outcome will be the identification of pathways for effective and sustainable integration of the guidelines into practice</p>	<p>3</p>

## Enhancements for 2019

In the next phase of the initiative, the UQ Student-Staff Partnerships team will be making the following amendments in response to feedback received from Student and Staff Partners and Student Representatives. Now that systems have been established, the UQ Student-Staff Partnerships team is in the position to roll-out these further supports:

- As of 2019, there will be four main rounds in which UQ students and/or staff can submit projects. Timelines are provided on the [Student-Staff Partnership Project website](#) and in Appendix A.
- A suite of Professional Development Workshops for UQ Student Representatives and Student Partners will be provided. Topic areas have been identified through Student Representative and Student/Staff Partner feedback. The list of sessions for 2019 is provided in Appendix B.
- The creation of Project Streams for Student-Staff Partnership Projects in consultation with a range of stakeholders. These include: Teaching & Learning; Student Experience; and Governance & Strategy. Descriptions are provided in Appendix C.
- The development of a mentoring network for 2019 Student Representatives and Partners. Based upon the findings of the scoping study currently underway, a set of key recommendations will be delivered to the UQ Student-Staff Partnerships Operational Group.
- Review and re-development of content for all project guidelines, forms and webpages in preparation for 2019. Feedback was elicited from a range of stakeholders to enhance these documents.
- As of Round 1, 2019, Inductions will increase in duration from 1 to 2 hours to provide opportunities for groups to develop clearer partnership expectations at the commencement of their projects. The UQ Student-Staff Partnerships team is collaborating with HASS Student Futures and Student Partners in the re-design of these Inductions. The team will pilot holding Inductions in streams to ensure that content is contextualised according to the project stream.
- Faculty Snapshots will be created for each Partnership Round to enable greater Faculty buy-in, recognition of Partners, and to identify areas of synergy. This Faculty Snapshot will be provided to Faculty AD(A)s and Executive Deans.
- Information and Consultation sessions will be run in conjunction with rounds to provide support for Partners in scoping their projects prior to submission; highlighting the process involved in projects; provide strategies and tips for students when applying to projects; and answer questions of students and staff. Previously, one information session was held per month.
- The initiation of networking events to enable and foster peer mentoring and knowledge-sharing amongst Student and Staff Partners across a range of projects. Prior to these events, opportunities will be provided for partners to identify themselves as Champions, and they will be identified at the commencement of the event. During the event, these Partners will be available to provide practical strategies, listen to challenges and mentor other partners.

## Challenges

- Recognition of staff involvement in initiative: Engaging in the process of partnership takes time, and thus staff must invest time to engage in partnership. Some Staff Partners have raised concerns that the current workload model does not support academic, professional and sessional (casual) staff members to collaborate in partnership projects. This requires structural changes to performance matrix's and greater buy-in from university executive through formalised recognition of staff

involvement in partnership projects. It is envisaged that the Faculty Snapshots will heighten awareness of the range of staff involved in this initiative. The team is also collaborating with a range of stakeholders in determining ways in which staff may be further recognised.

- Sustainability post-2020: As with strategic university funding, there are concerns over sustainability post-funding. A key challenge facing the initiative is thus how to sustain momentum and the lifespan of the initiative after funding ceases. At its core, this initiative seeks to create a cultural transformation at UQ – however this takes significant time. A positive step has been the immediate co-funding of this initiative. Whilst co-funding was envisaged to commence in 2020, in the first phase of the implementation, co-funding immediately commenced with the HASS Student Futures team and the Faculty of Science.

## Appendix C: Partnership Project Streams

### Teaching & Learning

Student-Staff Partnership Projects within the Teaching & Learning Stream seek to enhance curriculum content, design and facilitation. Examples may include

- Students Partners as Pedagogical Consultants or Advisors on courses. Students and Staff generate feedback with students within that course, conducting observations of teaching and collaborating to enhance, innovate, or co-create curriculum.
- Student Partners as Course Co-designers. Students and Staff collaborate on course design / development including the creation of interactive content, or innovative assessment or learning activities.
- Student and Staff Partners collaboratively integrating high-quality, learner-centred and inclusive course content and materials online.

### Student Experience

Student-Staff Partnership Projects within the Student Experience Stream seek to enhance the academic, non-academic and social aspects of the UQ student experience. Examples may include:

- Student and Staff Partners co-facilitating workshops or events to enhance the student experience (such as: sense of belonging; networking with peers; employability development).
- Student and Staff Partners co-developing initiatives or programs that contribute to the UQ student experience.
- Student and Staff Partners co-developing materials and support resources for educational campaigns (e.g. diversity, sexual misconduct etc.).
- Student and Staff Partners analysing the success of student experience initiatives.
- Student and Staff Partners collaborating on the enhancement of the SSP initiative (serving as Partnership Mentors; enhancing the processes or support resources for SSP).

### Governance & Strategy

Student-Staff Partnership Projects within the Governance & Strategy Stream seek to enhance student voice and supports within the decision-making processes of the University.

- Student and Staff Partners co-developing university strategy or policy that either has a direct or indirect impact on the UQ student experience.
- Student and Staff Partners co-developing support resources and mechanisms for students serving as representatives.
